**Please ask for: David Deriaz**

Dear Sir/Madam

**Wheatley Traffic Calming Phase 2a**  
**London Road and Old London Road**

I am writing to consult you about the proposed traffic calming in London Road (between The Triangle and Wyevale Garden Centre) and in Old London Road. The attached drawing no. 0014190/F3200 shows the proposed traffic calming features. In addition, the street lighting will be improved on the lengths of road to be traffic-calmed.

The purposes of the traffic calming measures are as follows:

In London Road: To reduce vehicle speeds and provide safe zebra crossings near bus stops;

In Old London Road: To reduce vehicle speeds and discourage London Road traffic from diverting to Old London Road.

If you have any comments on the proposed traffic calming measures, please send them to me by post or e-mail to reach me by 21 January 2005. Alternatively you may contact me by telephone if you prefer.

Data Protection: Comments received in response to this communication will be collated by Oxfordshire County Council for further consideration and assessment of the proposal and may also be used in connection with a modified scheme. They may be disseminated widely for these purposes and made available to the public.

Yours faithfully

Larger-scale plans will be available for  
inspection at the Wheatley Library,  
Merry Bells, during its opening hours.

David Deriaz  
Senior Engineer - Transport Projects Implementation
